

RESPONSE TO THE CORONA VIRUS

The Catholic Cemetery Association is taking the global pandemic very serious. Precautions are being taken to enhance the daily cleaning process for the protection of our families, visitors, and staff against the spread of the virus. We will be sanitizing our Mausoleums and Offices throughout the day, wiping down doors, handles and commonly touched surfaces.

FOR EVERYONE:

We encourage everyone to use common sense precautionary measures including:

- Regular hand washing
- Use of hand sanitizer
- Covering nose and mouth when coughing or sneezing
- Wiping down door handles (including car doors and steering wheels)
- Say hello with a big smile rather than a handshake
- Stay home if you are sick
- Seek medical care if you have any flu-like symptoms

Remember everyone will be impacted in some way, shape or form from the pandemic. We, as a community, need to support one another as best as we can.

Should you have any questions/concerns please contact your local office.

God Bless,

Catholic Cemetery Association of the
Archdiocese of Hartford, Inc.
